

Bachelor of Business Administration - Project Management Concentration

Program Learning Goals

	Develop, design, manage, and present project execution plans.	Understand and apply project management tools and techniques to initiate, plan, manage, execute and close a project according to the project life cycle.	Understand and apply project management best practices from the Project Management Institute (PMI)® in the Project Management Body of Knowledge (PMBOK® Guide).	Demonstrate leadership and the necessary hard and soft skills necessary to successfully integrate them into the proper execution of a project.	Develop the skills necessary to communicate project progress to stakeholders.	Demonstrate critical thinking skills for effective analysis and decision making.	Understand the potential social, ethical, and environmental impact not only to the project, but to society and the community and integrate these considerations into project planning and execution.
